YELLOWHEAD MINING INC.

Notes to the Condensed Consolidated Interim Financial Statements

Six months ended June 30, 2018

(Unaudited)

(In Canadian dollars)

1. NATURE OF OPERATIONS

Yellowhead Mining Inc. (“Yellowhead” or the “Company”) was incorporated on August 23, 2005 under the laws of British Columbia and is an exploration stage company engaged principally in the acquisition, exploration and development of mineral properties.

The Company’s head office is located at 525 8th Avenue SW, Suite 4900, Calgary, Alberta, T2P 1G1 and its registered and records office is located at Suite 2900, 550 Burrard Street, Vancouver, British Columbia, V6C 0A3.

These condensed consolidated interim financial statements have been prepared on a going-concern basis, which contemplates the Company will continue in operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. Several events and conditions cast significant doubt on the validity of this assumption. During the six month period ended June 30, 2018, the Company incurred a loss of \$93,723 (June 30, 2017- \$425,634), had negative working capital of \$526,473 (December 31, 2017- \$432,750) and an accumulated deficit of \$62,465,121 (December 31, 2017- \$62,371,398). On August 1, 2018 the Company closed a Rights Offering of \$1,051,935, which netted approximately one million dollars. These funds will be used to pay existing payables and to provide working capital for the next 12 months. Further additional funding will be required by the Company to complete its strategic objective of developing the Project.

The Company’s ability to continue as a going concern is dependent upon receipt of all required permits, establishment of profitable operations and the Company’s ability to obtain additional financing or outside participation to undertake further exploration and subsequent development of its mineral interests. While the Company has been successful in obtaining its required funding in the past, there is no assurance that sufficient funds will be available to the Company in the future. There is also no certainty that additional financing at terms that are acceptable to the Company will be available and the inability to obtain financing would have a direct impact on the Company’s ability to continue as a going concern.

The Company’s investments in mineral interests comprise a significant portion of the Company’s activities. Realization of the Company’s investment in these properties is dependent on establishing legal ownership of the properties, on the attainment of successful commercial production, or from the proceeds of their disposal. The recoverability of the amounts shown for mineral interests and property, plant and equipment is dependent upon the existence of economically recoverable reserves, the ability of the Company to permit the Project, the ability of the Company to obtain necessary financing to complete the development of the Project, and upon future production or proceeds from the disposition thereof.

With regard to the ability of the Company to complete the environmental permitting for the Project, the Company had to:

- March 19, 2018 to provide additional information for the Environmental Assessment Application to the BC Environmental Assessment Officer (BC EAO), including a best available technologies / best available practices study of the tailings management facility, to consider options to reduce excess water storage, to update mitigation strategies, to update the effects assessment, and to provide a summary report by a qualified professional on how the recommendations of the Mount Polley Tailings Storage Breach Report were considered for the Company’s Environmental Assessment Application; and

YELLOWHEAD MINING INC.

Notes to the Condensed Consolidated Interim Financial Statements

Six months ended June 30, 2018

(Unaudited)

(In Canadian dollars)

- June 30, 2018 for the BC EAO to complete its 180-day statutory review of the Project.

The Company had requested an extension to April 15, 2019 from the BC Government for both the March 19, 2018 and June 30, 2018 dates.

On July 19, 2018 the Company reported the decision by the BC Environment Ministry on the Company's request for an extension for its Environmental Assessment Application had been denied.

The BC Environmental Assessment Office (BC EAO) decided not to grant the Company's extension request and terminated the Company's Environmental Assessment Application.

For environmental permitting purposes, it appears that the Company would need to begin a new environmental application process, which incorporates the new proposed Federal and Provincial regulatory requirements. These requirements are currently scheduled to be effective April/May 2019. The Company will give consideration to the merits of this approach. The minimum time frame required for a new environmental assessment application process including the collection and incorporation of fresh baseline environmental data and First Nation consultation would be three to four years. Further additional funding will be required by the Company to complete this strategic objective, as well as to construct the mine.

The financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

2. BASIS OF PRESENTATION

(a) Statement of compliance

These consolidated financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB").

(b) Basis of presentation

The accounting policies used in the preparation of these condensed consolidated interim financial statements are the same as those applied in the Company's most recent consolidated annual financial statements for the year ended December 31, 2017. These condensed consolidated interim financial statements should be read in conjunction with the Company's consolidated annual financial statements for the year ended December 31, 2017.

These condensed consolidated interim financial statements were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on August 22, 2018.

These condensed consolidated interim financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair value.

The consolidated financial statements include the accounts of the Company and its 100% owned subsidiary Harper Creek Mining Corporation ("Harper Creek").

YELLOWHEAD MINING INC.

Notes to the Condensed Consolidated Interim Financial Statements

(In Canadian dollars)

(c) Critical accounting judgements and estimates.

The preparation of the condensed consolidated interim financial statements in conformity with IAS 34 requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. Note 3 of the Company's consolidated financial statements for the year ended December 31, 2017 contains a discussion of the Company's critical accounting judgements and estimates.

3. FINANCIAL INSTRUMENTS

Designation and valuation of financial instruments

The Company has designated its miscellaneous accounts receivable, prepaid expenses and deposits as loans-and-receivables; and accounts payable and accrued liabilities and due to related parties as other-financial-liabilities.

GST receivable is excluded from financial instruments as it arises from statutory requirements imposed by the Government of Canada.

The carrying values of cash and cash equivalents, miscellaneous accounts receivable, prepaid expenses and deposits, accounts payable and accrued liabilities, and due to related parties approximate their fair values because of the short-term maturity of these financial instruments.

The following table summarizes the designation of the Company's financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to 3 based on the degree to which the inputs used to determine the fair value are observable:

- Level 1 of the fair value hierarchy includes unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 of the hierarchy includes inputs that are observable for the asset or liability, either directly or indirectly; and
- Level 3 includes inputs for the asset or liability that are not based on observable market data.

YELLOWHEAD MINING INC.
Notes to the Condensed Consolidated Interim Financial Statements
Six months ended June 30, 2018
(Unaudited)
(In Canadian dollars)

The Company's financial instruments as at June, 2018 are as follows:

	As at	
	June 30, 2018	December 31, 2017
Financial assets		
Fair value through profit and loss		
Cash and cash equivalents	\$2,587	\$63,983
Miscellaneous accounts receivable	10,000	-
Prepaid expenses and deposits	42,530	-
Total financial assets	\$55,117	\$63,983
Financial liabilities		
Other-financial-liabilities		
Accounts payable and accrued liabilities	\$511,578	\$495,891
Due to related parties	72,398	8,815
Total financial liabilities	\$583,976	\$504,706

Financial Risk

The Company's risk exposure and the impact on the Company's financial instruments are summarized below:

(a) Credit risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations.

The Company is exposed to credit risk with respect to its cash and cash equivalents and miscellaneous accounts receivable. However, this is minimized as cash and cash equivalents are placed with major Canadian financial institutions with strong investment-grade ratings as determined by a primary ratings agency and miscellaneous accounts receivable for periods of less than one month.

(b) Liquidity risk

Liquidity risk is the risk that the Company will not have sufficient cash to meet its financial obligations as they become due.

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when they are due.

As at June 30, 2018 the Company had cash and cash equivalents of \$2,587 (December 31, 2017 - \$63,983) available to settle current liabilities of \$583,976 (December 31, 2017 - \$504,706). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. On August 1, 2018 the Company closed a Rights Offering of \$1,051,935, which netted approximately one million dollars. These funds will be used to pay existing payables and to provide working capital for the next 12 months. Further additional funding will be required by the Company to complete its strategic objective of developing the Project.

(c) Market risk

Market risks consist of interest rate risk, foreign currency risk and other price risk. The Company is not exposed to foreign currency risk or other price risks.

YELLOWHEAD MINING INC.

Notes to the Condensed Consolidated Interim Financial Statements

Six months ended June 30, 2018

(Unaudited)

(In Canadian dollars)

Interest rate risk

The Company's cash balance and cash equivalents are held in savings accounts and money market instruments respectively. The savings account and money market instruments pay interest of approximately 1.15%.

The Company is not exposed to significant interest rate risk due to the short-term maturity of its monetary assets and liabilities.

4. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development of the Project and to maintain a flexible capital structure, which optimizes the costs of capital to an acceptable risk.

The Company depends on external financing to fund its activities and there can be no guarantee that external financing will be available at terms acceptable to the Company. The capital structure of the Company currently consists of common shares and stock options. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new debt or new shares. Management reviews its capital management approach on a regular basis. There were no changes in the Company's approach to capital management and the Company is not subject to any externally imposed capital requirements.

The Company's investment policy is to hold its excess cash in high interest savings accounts and highly liquid short-term interest-bearing investments with maturities of 90 days or less from the original date of acquisition, and held with major Canadian financial institutions.

5. EXPLORATION AND EVALUATION EXPENSES

YELLOWHEAD MINING INC.

Notes to the Condensed Consolidated Interim Financial Statements

Six months ended June 30, 2018

(Unaudited)

(In Canadian dollars)

7. MINERAL INTERESTS

The Company had mineral interests of \$885,235 as at June 30, 2018 and December 31, 2017. On January 31, 2014 the Company extended all 131 of its mineral tenures through to November 3, 2024.

As per current legislation in relation with the Company's exploration permit the Company is required to lodge a reclamation bond with the Government of British Columbia. As at June 30, 2018 the reclamation bond lodged was \$85,000 (December 31, 2017 - \$85,000).

8. SHARE CAPITAL

(a) Authorized

Unlimited Class A common shares without par value

(b) Issued and outstanding

At June 30, 2018 the Company had 10,313,088 common shares issued and outstanding (December 31, 2017 - 10,313,088).

On August 1, 2018 the Company closed its Rights Offering that was announced on June 27, 2018. This Rights Offering resulted in 8,766,125 new common shares being issued for gross proceeds of \$1,051,935, bring total issued and outstanding common shares to 19,079,213.

(c) Stock options

The Company implemented a new stock option plan on April 19, 2012, whereby the Board of Directors of the Company may grant directors, officers, employees, and consultants stock options to acquire common shares of the Company. Under the stock option plan, options granted are non-assignable and may be granted for a term not exceeding ten years. The plan is administered by the Board of Directors, which determines individual eligibility under the plan, the number of shares reserved underlying the options granted to each individual (not exceeding 10% of issued and outstanding shares to any insider; not exceeding 2% of the issued and outstanding shares to any consultant) and any vesting period which, pursuant to the stock option plan can be determined and imposed by the Board of Directors. The plan provides for a rolling maximum and allows the Company to issue stock options up to a maximum of 10% of the Company's issued and outstanding common shares.

The movement in the Company's stock options for the six months ended June 30, 2018 was as follows:

	Number of options	Weighted average exercise price
Outstanding, December 31, 2017	55,500	\$ 3.00
Expired in 2018 Q1 & Q2	(41,667)	3.12
Outstanding, June 30, 2018	13,833	\$ 2.88

YELLOWHEAD MINING INC.

Notes to the Condensed Consolidated Interim Financial Statements

Six months ended June 30, 2018

(Unaudited)

(In Canadian dollars)

The Company's outstanding and exercisable stock options as at June 30, 2018 are as follows:

Exercise price	Expiry date	Outstanding		Exercisable	
		Number outstanding	Weighted average remaining life (years)	Number exercisable	Weighted average remaining life (years)
\$2.88	July 3, 2018	13,833	-	13,833	-

(d) Share-based compensation

During the three and six months ended June 30, 2018 and 2017, the Company did not grant any stock options. In 2016, all of the Company's options were fully vested and all share-based compensation was fully amortized.

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate.

9. RELATED PARTY TRANSACTIONS

Related party transactions not disclosed elsewhere in these financial statements are as follows:

- During the six months ended June 30, 2018, the Company incurred project exploration expenses of \$22,766 (June 30, 2017- \$21,891) to CME Consultants Inc., a contractor company controlled by a director of the Company's 100% owned subsidiary Harper Creek. These costs have been included in exploration and evaluation expenses. As at June 30, 2018, the balance owing to that company was \$nil (December 31, 2017- \$nil).
- During the six months ended June 30, 2018, the Company incurred professional fees of \$39,902 (June 30, 2017- \$nil) for CEO services and financial services to Coates Consulting, an entity controlled by the Interim CEO, effective on his appointment on March 26, 2018. These costs have been included in professional fees. As at June 30, 2018, the balance owing to that company was \$39,902 (December 31, 2017- \$nil).
- During the six months ended June 30, 2018, the Company incurred professional fees of \$15,410 (June 30, 2017- \$19,620) for CFO services to David McGoey Professional Corporation, a company controlled by the CFO. These costs have been included in professional fees. As at June 30, 2018, the balance owing to that company was \$21,037 (December 31, 2017- \$4,856).
- During the six months ended June 30, 2018, the Company incurred director fees of \$7,500 (June 30, 2017- \$7,500) for Audit Committee Chairman services to 771120 Alberta Ltd, a company controlled by a director. These costs have been included in wages and benefits. As at June 30, 2018, the balance owing to that company was \$11,459 (December 31, 2017- \$3,959).

These transactions, occurring in the normal course of operations are measured at the estimated fair value of the services provided or goods received.

YELLOWHEAD MINING INC.

10. SUPPLEMENTAL CASH FLOW INFORMATION

Supplementary Information	As at	
	June 30, 2018	June 30, 2017
Interest received	\$ -	\$ 852
Interest paid	-	-
Income taxes paid	-	-

The Company did not have any non-cash financing or investing activities for the six months ended June 30, 2018 and 2017.

Cash and cash equivalents	As at	
	June 30, 2018	December 31, 2017
Cash	\$ 2,587	\$ 63,983
Total cash and cash equivalents	\$ 2,587	\$ 63,983

11. COMMITMENTS and CONTINGENCIES

As at June 30, 2018 and December 31, 2017, the Company had no contractual expense commitments. Effective October 1, 2017, the Company has a land lease commitment to September 30, 2018 to rent out a small portion of its Vavenby land for annualize lease revenue of \$200,000. The one-year lease term has two options to renew the term of the lease to a further six months per option.

Due to the nature of the Company's operations, various legal and tax matters arise in the ordinary course of business. The Company accrues for such items when a liability is both probable and the amount can be reasonably estimated. In the opinion of management, these contingency matters will not have a material effect on the consolidated financial statements of the Company.
