ROC #	Date (Location)	Communication Method	Topic of Discussion
273	06/01/2011 (Clearwater)	Open House	<p>1) Open House: YMI open house from 12-4 pm. EAO open house from 4-7 pm. Attended by about 75 people from neighbouring communities.</p> <p>2) Discussion during the YMI question-and-answer period included job opportunities, the EA process, and collection of baseline information and how this information will be used in the EA. Concerns were raised about effects on local creeks from mine water usage (flow impacts) and metal leaching (water quality).</p> <p>3) General Comments: (a) water use and management; (b) water quality/metal leaching; (c) potential effects on access and use of the project area by the local snowmobile club.</p>
769	06/01/2011 (Chu Chua)	Meeting	<p>1) Natural Resources Manager, Council</p> <p>2) Joint Ventures: SFN is interested in joint venture and contract opportunities associated with Project development.</p> <p>2) Employment Opportunities: SFN would like access to contracting and employment opportunities for the Project.</p> <p>3) Site Visit: YMI will organize a site visit for Chief and Council to tour the site.</p>
286	06/06/2011 (Chu Chua)	Meeting	<p>1) Meeting with Chief and Council and department managers.</p> <p>2) Discussed Socio-economic Baseline Report: and socio-economic information to be provided by SFN.</p>
777	06/08/2011	Phone Call	<p>1) Open House: YMI confirmed that a copy of the open house presentation was provided to the Shuswap Nation Council.</p>
786	06/15/2011 (Chu Chua)	Meeting	<p>1) Archaeology: Discussed archaeology work and issues about traditional use with SFN member.</p> <p>2) Tailings Pond: How is water downstream of the dam will be protected?</p> <p>3) SFN Comments: (a) traditional use; (b) downstream effects.</p>
300	06/20/2011	E-mail	<p>1) Baseline Studies, Archaeology: YMI confirmed there is some drilling onsite as well as baseline studies.</p>
303	06/27/2011	E-mail	<p>1) General Services Agreement: YMI provided a General Services Agreement for involvement in baseline studies.</p>
801	06/29/2011 (Kamloops)	Meeting	<p>1) Discussed the archaeology work program, recent correspondence from ALIB, the socio-economic baseline template and TUS.</p>
1008	07/04/2011 (Chu Chua)	Meeting	<p>1) Meeting with Chief and Council.</p> <p>2) Project Update: YMI provided information about the Project.</p> <p>3) Discussed potential effects, reclamation, economic benefits, revenue sharing, ALIB territory overlap claim to the Project site and the EA process.</p> <p>4) SFN Comments: (a) water quality effects from mining operations; (b) long-term reclamation of mine site area; (c) EA process.</p>

ROC #	Date (Location)	Communication Method	Topic of Discussion
1019	07/20/2011	Phone Call	1) Archaeology: Discussed SFN involvement in the archaeology assessment.
342	07/27/2011	E-mail	1) Info Request: YMI provided the requested maps (e-mail from SFN, June 26, 2011), as well as information about the drill holes and pit area construction.
401	08/03/2011	E-mail	1) Capacity Funding: YMI requested a meeting with SFN to discuss the 2010 Negotiation Agreement and Letter of Engagement.
410	08/04/2011	Site Visit	1) Site Visit: YMI and SFN toured the site and discussed access construction and water management at active and non-active drill sites, and the work needed to deal with the blocked culvert on a tributary in the tailings management area.
411	08/05/2011	E-mail	1) Archaeology: YMI provided a map outlining the drilling program area. Suggested doing a PFR on the whole area, if the Bands agree.
415	08/05/2011	E-mail	1) Archaeology: YMI provided an update on the PFR work for the drilling program.
439	08/10/2011	E-mail	1) Baseline Studies: Discussed water quality sampling in Jones Creek.
441	08/11/2011	E-mail	1) Baseline Studies: Discussed water quality of Jones Creek
462	08/19/2011	E-mail	1) Info Request: As follow-up to a question from the working group meeting, YMI noted that there will be no camp during operations, there will only be a temporary camp during construction. 2) Site Tour: YMI requested dates for a tour of an operational mine.
484	08/22/2011	E-mail	1) Archaeology: Discussed the pedestrian AIA survey.
1042	08/22/2011	Meeting	1) Archaeology: Discussed priorities for archaeology work.
471	08/23/2011	E-mail	1) Site Visit: YMI asked for dates from Chief and Council for a tour an operational mine for interested community members. 2) Project Update: YMI offered to have someone come talk to the Band about the tailings management facility.
479	08/26/2011	E-mail	1) Info Request: YMI provided the mine site footprint for the archaeology assessment.
1046	08/29/2011	Phone Call	1) Draft AIR: Discussed SFN input on the dAIR. 2) Baseline Studies, Employment Opportunity: YMI requested involvement of SFN in upcoming line cutting and fisheries field work.
494	09/01/2011	E-mail	1) Draft AIR: YMI requested a meeting with SFN and Triton to review the dAIR.
505	09/08/2011	E-mail	1) Baseline Studies: YMI responded to SFN's concerns regarding water management and siltation at drilling locations.

ROC #	Date (Location)	Communication Method	Topic of Discussion
1057	09/16/2011 (Chu Chua)	Meeting	1) Meeting with Council and Band Administrator. 2) Consultation: SFN informed YMI that they received a letter from BC EAO that they are the primary First Nation in the Project area.
584	10/07/2011	E-mail	1) Archaeology: A rock cairn was found during field work. Discussions will be held to determine options for further work and mitigation.
1072	10/11/2011 (Chu Chua)	Meeting	1) Meeting with Council. 2) Site Visit: A visited to the rock cairn with Elders from ALIB and SFN is being planned 10/21/2011. 3) Archaeology: Function of the rock cairn is unknown; it will be registered as an archaeological site.
617	10/21/2011	Site Visit	1) Archaeology: Visit by SFN Elders and councillors to the rock cairn site.
635	10/21/2011	E-mail	1) Capacity Funding: SFN provided the signed Letter of Engagement, which includes funding for technical experts, a skills assessment and a traditional use study.
642	10/24/2011	E-mail	1) Archaeology: YMI requested a summary of the rock cairn site visit with Elders on 10/21/2011. YMI is looking for guidance from SFN as to next steps and possible mitigation strategies.
644	10/24/2011	E-mail	1) Info Request: YMI sent the photo provided on 10/21/2011 to an independent expert, who confirmed the tracks were moose, not caribou.
15	10/25/2011	Letter	1) AIR: YMI provided a copy of the approved AIR.
645	10/25/2011	E-mail	1) Site Visit, Archaeology: YMI requested a summary of the rock cairn site visit with the Elders from SFN.
648	10/26/2011	E-mail	1) Archaeology: YMI requested input on next steps and mitigation strategies for the rock cairn site.
661	11/01/2011	E-mail	1) Project Update: YMI provided a chart outlining the proposed development schedule for the Project.
1063	11/01/2011 (Kamloops)	Meeting	1) Archaeology: Will do further field work on the rock cairn in spring 2012.
687	11/08/2011	E-mail	1) EA Process: YMI outlined the major steps and timelines associated with the BC EA process.
699	11/10/2011	E-mail	1) Archaeology: YMI requested an update on options to address the function of the rock cairn.
720	11/18/2011	E-mail	1) Socio-economic Baseline Report: YMI provided the draft SFN socio-economic baseline report for SFN to review.
1117	11/29/2011 (Kamloops)	Meeting	1) Baseline Studies: Discussed how SFN and ALIB can work together to coordinate involvement in baseline studies.

ROC #	Date (Location)	Communication Method	Topic of Discussion
811	12/01/2011	E-mail	1) Archaeology: Will discuss mitigation options for the rock cairn site in spring 2012.
816	12/01/2011	E-mail	1) Info Request: YMI provided maps to overlay traditional use information for the community meeting.
827	12/06/2011 (Chu Chua)	Open House	1) Community Meeting: Attended by approximately 30 SFN members. Comments included concerns about mine legacy, contaminant seepage, cumulative effects and downstream effects. 2) SFN Comments: (a) mine water source; (b) amount of water required for mine operations; (c) which creeks will be affected; (d) effects on wildlife habitat; (e) cumulative effects.
1120	12/05/2011	Phone Call	1) Drill Sites: Expressed concern about silt getting into waterways. YMI will put hay bales in sumps to control sedimentation.
876	01/04/2012	E-mail	1) Project Update: YMI provided an updated timeline showing the proposed timeline for the EA Application and <i>Mines Act</i> permit.
886	01/06/2012	E-mail	1) Info Request: YMI provided SFN with shape files and maps, as requested.
916	01/16/2012	E-mail	1) Info Request: YMI provided responses to the SFN member's comments from the community meeting, as requested.
1130	01/26/2012	Site Visit	1) Site Visit: Toured Copper Mountain with SFN Council and community members.
1575	02/22/2012	Phone Call	1) Employment and Training Assessment Report: SFN provided an update. 2) Traditional Use Study: SFN needs to do some field work and will set up a conference call to discuss the study the week of 02/27/2012.
1585	02/28/2012 (Chu Chua)	Meeting	1) Employment and Training Assessment Report: YMI suggested Starbird work with SFN staff to identify capacity and gaps within SFN. 2) Pit Size: SFN member expressed concern about the size of the pit.
1586	02/28/2012 (Chu Chua)	Meeting	1) Traditional Use Study: Discussed details and timeline to complete the study.
1587	03/01/2012	Phone Call	1) Employment and Training Assessment Report: Discussed details for the report, potential training programs, existing Band capacity, and how to build capacity.
2548	03/08/2012 (Chu Chua)	Community Event	1) YMI participated in a career fair hosted for SFN members.
1203	03/12/2012	E-mail	1) Archaeology: YMI requested that comments from SFN on the draft archaeology report be provided by the end of March.
1204	03/14/2012	E-mail	1) Fisheries: Triton expressed concerns re: effects on fisheries in the Harper Creek area. YMI and Triton to meet to discuss. 2) SFN Comments: (a) effect of temperature and reduced flows on Bull trout.

Table 3-E1. Summary of YMI's Communications with Simpcw First Nation (to July 31, 2014)

ROC #	Date (Location)	Communication Method	Topic of Discussion
1224	03/31/2012	E-mail	1) Feasibility Study: YMI noted that there is a link to the feasibility study on the YMI website.
1594	04/16/2012 (Kamloops)	Meeting	2) Employment and Training Assessment Report: YMI and SFN to meet to create a list of the existing skill set of Band members, to develop a training and capacity building program for SFN. 3) Mines Act Notice of Work Application: SFN to send a letter of support for the exploration program to BC FLNRO. 4) Baseline Reports: YMI to provide copies of the fisheries and wildlife baseline reports to Triton .
1605	04/25/2012 (Kamloops)	Meeting	1) Traditional Use Study: SFN will follow up on the status of the draft report. 2) Archaeology: Discussed mitigation options for the rock cairn. 3) Project Update: YMI provided an update on the EA application. 4) Baseline Studies: Both ALIB and SFN members will be involved in baseline studies.
1327	04/27/2012	E-mail	1) Info Request: YMI provided SFN and ALIB with a map of the mine site layout as described in the Feasibility Study.
1628	06/12/2012	Letter	1) YMI provided a letter of support for SFN's ongoing effort to access long-term, viable forest tenure from the Province.
1676	06/24/2012	E-mail	1) Traditional Use Study: YMI reviewed the executive summary of the Traditional Use report.
1738	07/04/2012	E-mail	1) Socio-economic Baseline Report: YMI provided the maps for the report.
1739	07/04/2012	E-mail	1) Baseline Reports: YMI provided copies of the baseline reports.
1781	07/13/2012	E-mail	1) Archaeology: A second rock cairn was identified on 07/11/2012. A work plan is being developed by Terra and SFN to develop options to assess the function and mitigation for the two rock cairns.
1871	07/19/2012	E-mail	1) Baseline Reports: YMI requested feedback on the draft baseline reports by 07/30/2012.
1882	07/20/2012	Site Visit	1) Site Visit: SFN Elders and members visited the Harper Creek project site to view the rock cairns.
1891	07/25/2012	E-mail	1) Baseline Studies: KP will be coordinating a fisheries site visit with DFO near the end of July. YMI will include SFN and ALIB in on fisheries Technical Working Group meetings and site visits.
1851	07/31/2012 (Kamloops)	Meeting	1) Archaeology, Traditional Use Study: Discussed status of AIA, options to address function of the rock cairns, and inclusion and identification of culturally important plants in the Traditional Use Study.
1916	08/01/2012	E-mail	1) Traditional Use Study: YMI requested SRG to follow up with SFN on how culturally important plants onsite are being included in the archaeology work and SFN Traditional Use Study (per ALIB's request).

Table 3-E1. Summary of YMI's Communications with Simpcw First Nation (to July 31, 2014)

ROC #	Date (Location)	Communication Method	Topic of Discussion
1978	08/20/2012	E-mail	1) Socio-economic Baseline Report: SFN reviewed the SFN socio-economic baseline report and is fine with it. YMI noted that the information is available for SFN use.
1991	08/22/2012	E-mail	1) Open House: YMI invited SFN to attend the open house on 09/13/2012 in Clearwater.
1357	08/28/2012 (Kamloops)	Meeting	1) Baseline Studies: YMI will include SFN in discussions on effects on fisheries and habitat offsetting options with regulators. 2) Traditional Use Study: SFN will provide the Traditional Use Study report as soon as the legal review is complete. 3) Archaeology: YMI would like to meet with SFN and ALIB to discuss next steps to determine the function of, and mitigation options for, the rock cairns.
2013	08/28/2012	E-mail	1) Socio-economic Baseline Report: YMI provided the revised SFN socio-economic report, with the changes requested by the Chief. Asked the Chief review and confirm on the report (SFN confirmed the changes made were fine on 8/29/2012).
1439	09/11/2012 (Kamloops)	Meeting	1) Archaeology: An interim AIA report will be submitted by Terra to YMI to include in the EA Application. 2) Archaeology: Discussed potential mitigation strategies for the rock cairns. Function remains unknown. 3) ALIB: SRG will coordinate a meeting with SFN and ALIB to discuss potential mitigation strategies for the rock cairn.
1476	09/20/2012 (Kamloops)	Meeting	1) Archaeology: YMI requested that SRG/Terra set up a meeting with SFN and ALIB to discuss next steps and mitigation options for the rock cairns.
2196	09/25/2012	Phone Call	1) Archaeology: Discussed archaeology. 2) Discussed proposed fisheries meeting with DFO and BC MOE.
2148	10/01/2012	E-mail	1) Consultation: Discussed the section 13 Order and the decision by the BC EAO to include other First Nations in EA consultation.
2167	10/04/2012	E-mail	1) YMI invited the four First Nations to a meeting with DFO and BC FLNRO on 10/22/2012 to discuss potential effects on fish and fish habitat, and offsetting options.
2175	10/05/2012	E-mail	1) YMI cancelled the fisheries meeting at the request of the BC EAO and CEAA. Fisheries will be discussed at the upcoming Working Group meeting.
2177	10/05/2012	E-mail	1) Consultation: YMI notified SFN that BC EAO revised the section 11 order to formally include NIB and LSIB in the EA review.
2604	10/22/2012	Letter	1) YMI notified SFN of a change in senior management (interim CEO) as of 10/18/2012, and that the VP Environment, Community and First Nations Relations will continue to lead the EA process.
2214	10/29/2012	Phone Call	1) Project Update: Discussed the EA process and the next WG meeting.

ROC #	Date (Location)	Communication Method	Topic of Discussion
2304	10/29/2012	E-mail	1) Consultation: YMI requested a meeting with SFN to discuss consultation with additional First Nations.
2307	11/02/2012	E-mail	1) Working Group: As requested by SFN and TIB, YMI e-mailed the map figures from the BC EAO Working Group presentation.
2308	11/02/2012	E-mail	1) Info Request: YMI provided the geochemical information and modelling discussed with BC MEM, as requested.
2309	11/02/2012	E-mail	1) YMI noted that the Project should not impact the Adams Lake Watershed, and that downstream effects being assessed in the EA Application are in the Harper Creek and Baker Creek watersheds.
2312	11/05/2012	E-mail	1) Working Group: Triton provided further input relating to fish habitat and water quality risks. 2) SFN Comments: (a) potential effects on water quality and need for mitigation; (b) mitigation for impacts on fish habitat.
2346	11/08/2012	E-mail	1) Info Request: YMI requested a map of the SFN traditional territory for inclusion in the EA Application, as well as a map of the Shuswap Nation showing the member bands. SFN agreed to provide.
2409	11/30/2012	E-mail	1) Info Request: YMI provided a copy of its Aboriginal Procurement Policy, per SFN's request.
2320	12/10/2012	E-mail	1) Archaeology: YMI provided SFN with a copy of the AIA report.
2321	12/10/2012	E-mail	1) Consultation Plan and Summary: YMI provided a summary of consultation between YMI and First Nations in relation to the Project, and requested comments by 01/11/2013.
3103	12/10/2012	Letter	1) Consultation Plan and Summary: Further to the section 11 Order, YMI provided a summary of consultation undertaken with SFN, as well as a proposal for consultation for review of the Application. Comments on the summary requested by 01/13/2011. 2) Archaeology: YMI also provided a copy of the AIA report submitted to the BC Archaeology Branch.
2326	12/11/2012	E-mail	1) Project Update: YMI noted that it expects to file the EA Application in late January.
2388	01/23/2013	Letter	1) Consultation Plan and Summary: SFN provided comments on the First Nations Consultation Summary and Plan. Requested further information related to baseline, assessment and mitigation for potential environmental effects. 2) SFN Comments: (a) baseline studies; (b) preparation of mitigation plans for impacts and risks; (c) restoration to pre-project conditions after closure; (d) list of impacts that cannot be rehabilitated, and compensation for these impacts.

Table 3-E1. Summary of YMI's Communications with Simpcw First Nation (to July 31, 2014)

ROC #	Date (Location)	Communication Method	Topic of Discussion
2392	01/30/2013	Letter	1) YMI thanked SFN for their 01/23/2013 letter with questions about the Project and comments on the First Nations Consultation Summary and Plan, and provided answers to their questions relating to baseline studies, mitigation plans and restoration/reclamation.
2395	01/30/2013	E-mail	1) Traditional Use Study: YMI requested permission to include the SFN TUS report in the EA Application. SFN provided permission to include the public version of the report.
2420	02/07/2013	Letter	1) SFN expressed concern about potential effects of earthquakes on the structural integrity of the open pit and underlying bedrock substrata as well as the TMF, and the possibility of water contamination. 2) Concern: (a) potential for earthquakes, causing release of contaminated water into surface and underground water resources.
2256	02/28/2013	Meeting	1) Meeting SFN and ALIB Chiefs. 2) Capacity Funding: Discussed capacity funding. 3) SFN Comments: (a) Capacity funding to participate in the EA process.
2428	03/01/2013	Letter	1) YMI responded to SFN's 02/07/2013 letter expressing concerns about earthquakes. Noted that a detailed seismic assessment was done, and that seismic hazard at the site is low.
2474	05/30/2013	Letter	1) Consultation: YMI provided information to SFN regarding direction from the BC EAO for additional consultation with First Nations. Requested a meeting with Chief and Council to discuss the Project, potential effects on SFN's Aboriginal interests and potential mitigation measures.
2451	06/11/2013	E-mail	1) A copy of the 06/07/2013 presentation to the Major Projects Management Office was provided to the regulators and SFN.
2590	06/18/2013	Phone Call	1) Feasibility Study: Discussed operating and construction costs relating to the feasibility study.
